

# Staples® and Students Together for a Smaller Footprint

Tread Lightly is a free climate change education and engagement program offered by TakingITGlobal (TIG), with the generous support of the Staples® Foundation for Learning.

Tread Lightly provides opportunities for schools to partner with Staples® associates to learn more about how the company is contributing to a more sustainable future.

## IDEAS FOR COLLABORATION:

- Request that an associate do a presentation to your school or class on Staples sustainability initiatives.
- Take your school on an eco-tour through Staples facilities.
- Have your students interview a Staples associate about environmental stewardship.
- Invite a Staples associate to be a guest advisor for a class project on corporate social responsibility.
- Or come up with your own ways to partner with a Staples store or office in your area to implement an environmental project!

## ARE YOU READY TO TREAD LIGHTLY?

Contact Katy Dobbs, Director of Corporate Social Responsibility, at [katy.dobbs@staples.eu](mailto:katy.dobbs@staples.eu) or visit [www.treadlightly.me](http://www.treadlightly.me) for more information.
